

## **Assemble With Care From Ustwo Games Launches Today**

**A new narrative puzzler from the creators  
of Monument Valley, exclusive to Apple Arcade**

**September 19, 2019:** Assemble With Care, a unique new narrative puzzle game from acclaimed British developer ustwo games, is now available exclusively through Apple Arcade.

From the award-winning studio behind Monument Valley, Assemble With Care is a story about taking things apart and putting ourselves back together. Check out the new trailer [here](#).

Play as Maria, a globe-trotting antique restorer who arrives in the sun-soaked town of Bellariva determined to help the town's inhabitants save their most cherished possessions. Through doing so, she learns just why these items are so beloved.

Assemble With Care tells its evocative story through meaningful, tactile gameplay, vibrant handcrafted visuals and powerful writing.

"Assemble with Care really follows in the footsteps of Monument Valley, with an emphasis on tactile, easily understood interactions and beautiful design," said Dan Gray, Chief Creative Officer at ustwo games. "It's perfect for gamers and non-gamers alike and the whole team is so excited to finally share it with the world."

Assemble With Care is ustwo games' first title since Monument Valley 2, which was nominated for a string of high-profile awards and named Best Mobile Game at the 2017 Game Awards. Its predecessor, Monument Valley, won Best British Game at the 2015 BAFTAs.

Apple Arcade costs £4.99 a month and launches today with a one-month free trial. The service is playable across iPhone, iPad, Mac and Apple TV.

Press and content creators interested in covering the game should contact the team at [ustwo@bastion.co.uk](mailto:ustwo@bastion.co.uk).
